REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Dunbarton:

I hereby submit my annual report as superintendent of the schools of Dunbarton.

The current school year opened in September with an enrollment total slightly below the figure of a year ago, at which time we found the Center School filled to capacity. Fortunately our pre-school census fails to show any appreciable change in school population until the fall of 1953 when an unusually large group is scheduled to enter Grade one of the Center School. Unless new families move into our midst, we probably will not face a school housing problem for the next three years.

Although all three of the teachers of last year were to return this past fall, Mrs. Elizabeth Fottler, who has taught the upper room at the Center was unable to resume her duties and asked for a leave of absence. It is expected that Mrs. Fottler will find it possible to return by next fall. In the interim we were very fortunate in being able to secure Mrs. Esther Hight of Weare, a teacher of considerable experience, to take over in Mrs. Fottler's stead. Mrs. Hight has made an excellent contribution to the work of the school.

The failure of the state legislature to continue the state aid program adopted by the 1947 session of the general court has been a severe blow to many school districts of New Hampshire. As you know the amount of state aid to education was reduced from $2,000,000 in 1948-49 to

$400,000 for the year 1949-50. It is undoubtedly true that some towns do not need state support, but, on the other hand, certain towns where the amount of taxable property per pupil is relatively low, state aid is definitely necessary. In the case of Dunbarton, we received from state funds $5,961 in 1947 through 1949. As a result of the reduction by the legislature, the amount received during the present school year was $4,367, a reduction of some $1,600. The difference necessarily had to be raised through an increase in the property tax.

Your school board has presented the budget for the coming year in a new form, accompanied by the actual receipts and expenditures for 1948-49 and the anticipated amounts for 1949-50. The reader will note that the estimated balance as of June 30, 1950 represents the actual cash balance as of that date minus the summer payroll (salaries earned from September through June but paid on a twelve-month basis). Similarly the amount listed under teachers' salaries includes the July and August payrolls in addition to the actual payments from July 1, 1949 to June 30, 1950.

The budget to be submitted to the voters for their consideration proposes a total expenditure of some $1,700 in excess of the total appropriated in March of 1949, necessitating an estimated levy on the district of $2,200 more than a year ago. The major increase on the expenditure side is due to the increase in the tuition rates on high school pupils, the Union School District of Concord having already set the tuition for 1950-51 at $250.00 over against $190.00 for the current year. With an increase of six secondary pupils, this factor of increased cost per pupil together with six additional pupils next year has caused the costs of tuition to increase $2,550 over last year's budget figure.

On the income side of the budget the item for "dog tax" has been omitted, as the 1949 legislature provided that this

source of revenue would no longer be paid over to the School District, but rather to be retained by the Town.

Respectfully submitted,
LEWIS F. FOOTE,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

So many children and young people at the age when they should be at their best have bodily defects. Although most of them are presumably well, only a few are entirely free from some defect. Often these defects seem trivial and apparently are of no importance, but we know that even slight defects are likely to lead to trouble later on in life if they are not corrected. Such causes as these may be responsible for failure to make the expected progress in school work. Therefore, we endeavor at the time of the fall examinations to notify the parents of any defects which should have further attention, and recommend that they consult their family physician or dentist for more complete examination and advice.

Many first graders before entering our schools in the fall have been immunized against diphtheria, whooping cough and tetanus. Nearly every pupil in this Union has had the Patch Test. Children showing a positive reaction are referred to the tubercular clinic in Manchester for a chest examination and X-ray. Dr. Kerr advises that those children who were "Patched" four years ago be done again this spring. Twenty-four children had this test in February, 1949. All were negative to tuberculosis. We have requested the State Board of Health to locate the Mobile X-ray Unit in Goffstown during the Spring where it would also be available to Dunbarton and New Boston people. Weare pupils had this last year in Henniker.

Every year a hearing test is given with an instrument that determines the hearing efficiency of our school children. A vision test is also given. Both instruments are electrically operated.

In the fall, about 120 pupils were examined by the school nurse. The following report shows the number of pupils affected and the number of defects corrected:

Defective vision— 9	Number of defects corrected— 6
Defective teeth—80	Number of defects corrected—40
Diseased tonsils—14	Number of defects corrected— 4

FOREST FIRES—OUR MOST SHAMEFUL WASTE

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public—YOU!

The primary objective of all fire fighters is PREVENTION—fire stoppage. This is the goal toward which your local fire warden and his deputies are constantly working. It can be achieevd ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.
2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.

4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

1949 Fire Record

Number of Fires	4
Acreage Burned	46¼
Number of fire permits issued	63

HENRY HODGMAN,
Forest Fire Warden.

District Chief.
